### SAFETY PRECAUTIONS

Please take time to read the important instructions in this booklet. Observing the step by step instructions and complying with warnings will be your personal guarantee to greater game satisfaction over a long period of time.

- This is a high precision Game Pak. Do not store it in places that are very hot or cold. Never hit it or drop it. Do not take apart.
- Do not touch the connectors. Do not get them wet or dirty. Doing so may damage the Game Pak and/or the Control Deck.
- 3) Do not clean with benzene, paint thinner, alcohol or other such solvents.
- 4) Store the Game Pak in its protective sleeve when not in use.
- Always check the Game Pak edge connector for foreign material before inserting the Game Pak into the control Deck.
- 6) There may be areas on your screen that are not accessible, but this in no way will impede game play.

### 1 GETTING STARTED

### 1. GOAL

### 1 Game Overview

This is a war-simulation game which pits two powerful enemies against each other in modern warfare. The player is in command of the movement, battle operations, and supply of all his units. During battle, if the NORMAL mode has been selected, the player assumes personal control over the action.

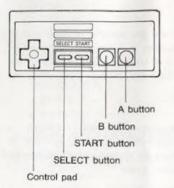

### 2 Victory And Defeat

Your goal is to bring the enemy under your control, and ultimately to conquer all of his territory. In one-player mode there are 16 maps to choose from. In two-player mode there are 15 maps. Victory is achieved with the defeat of the enemy commander's unit.

NOTE: The commander's unit, a tank unit, is indicated by an "H".

### 2. CONTROLLER PARTS

Game control is as follows.

Control pad : Selection, cursor

A button : Make choice, activate B botton : Stop action, cancel

movement

START button : Unit function indicated SELECT button : Battle mode selected

### 3. START UP

1 Selection of Mode & Number of Battle Units

Pushing the START button on the Title Screen will bring up four selections, 1 Player, 2 Players,3 Units and All Units.

1 Players BLUE = Player, RED = Computer
2 Players BLUE = Player 1, RED = Player 2
3 Units 3 units can be moved at once

All Units All units can moved at once

NOTE: All-Units mode is more difficult. Three-unit mode is recommended for beginners.

2 Level of Difficulty (FAME POINT)

Selecting 1-Player mode the level of difficulty appear on the screen. If the level is high, FAME POINT (FP) will be necessarily lower.

NOTE: FP is important in the production of new arms. If your FP is high, you can produce several different types of units. If your units occupy a town or an airport; or win a battle, you gain FP.

### 3 Map Selection

Any map from 1 to 15 may be selected. However, map 16 is reserved for 1-Player mode. Upon winning a battle in each of the fifteen maps, you receive an important password which later must be input before entering map sixteen.

In map 16 there are three levels of difficulty. In order to play on this map, however, you must have first secured all previous passwords from map 1 through map 15.

Note that, although proper passwords may have been used, you cannot change levels upon entering a new map. For example, if you have used level one from map 1 to map 10, you cannot change to level two from map 11 through 15.

### 2 GAME PLAY

### 1. MOVEMENT

### 1 Selecting Units To Go Into Action

The Control Pad will allow you to move the cursor to your selection. Pressing A button will make your selection (DECISION). Press the B button twice to exit this screen.

#### 2 Production

Moving your cursor to the picture of the factory brings up the Production Screen. (See 11th page)

Use the Control Pad to move the cursor to the unit that you wish to produce.

Use the A button to select (decide) which unit to produce.

NOTE: YOU CANNOT PRODUCE A UNIT AFTER ALL PRESENT UNITS HAVE MOVED. For example, in 3-unit mode you may produce after 1 or 2 units have moved, but not after all 3 have moved.

### 3 Function of Units

After moving the cursor to the selected unit, pressing the START button will display the function of that unit. Pressing the START button once more will bring you back to the original screen.

### (3) Unit Movement

Bringing your cursor to the word MOVE, then pressing the A button will initiate a unit move. The Control Pad sets the direction. The A button will execute the move.

NOTE: To cancel a move you must first direct the cursor to the word MOVE in the Command Window. Then press the B button to change the window to the YES NO options. Finally, move the cursor to the word NO and press the A button.

### 2. PRODUCTION

Moving your cursor to the picture of the factory brings up the Production Screen. The units indicated on the screen will be those that you can presently produce. How many units you can produce depends on your FP. There are two basic types of units to produce, those for air combat and those confined to ground warfare. You can select

only one type per turn (that is, only one unit production is possible until all units have been moved).

NOTE: If you manage to destroy the command unit guarding the factory, the factory itself will disappear.

### 3. BATTLE

When an enemy unit is adjacent to your unit, you can engage the enemy in battle. Pressing the Control pad determines which adjacent enemy unit will be engaged. Pressing the A button twice begins the battle.

### 1: Battle Screen

(Graphic Window)

The action in progress will be shown in the Graphic Window.

(BLUE Army)

Unit Name Endurance Power Ammunition

(BLUE Army)

TOWN APPER

(Message Area)

Command communiques and battle reports

RED Army

Unit Name Endurance Power Ammunition

(RED Army)
Command Area

### 2 Battle Mode

There are two types battle possible, NORMAL and AUTO.

#### (NORMAL)

In this mode you can react to each indident as it occurs. In other words, you will be able to direct return fire against an attacking enemy. You will also be able to give appropriate commands in response to what is indicated in the Message Window

#### <AUTO>

In this mode all action is determined by the computer. Pressing the SELECT button during a battle will allow you to switch modes. Pressing the Control Pad will move the cursor to your choice of mode. Pressing the A button after this will put you into your selected mode.

NOTE: The mode and the scroll speed of the Message Window can change only once per battle scene.

### (3) Commands (IN NORMAL Mode)

Commands available during battle are as follows.

#### (ACTION)

ATT Attack. · Changes to Weapon Select Window.

Der Defense. - Changes to Defense Select Window.

RET Retreat. - Allows defensive actions and, at times, a retreat.

#### (WEAPON SELECT COMMANDS)

Some units give you a weapons option. Your choices are limited to two per unit. The normal choice is standard equipment, for which there is no ammo limit. The second choice is for special equipment. There is a limit on ammo for special weapons. The special weapons have more fire power and better accuracy than

the normal weapons. Of course, the use of some special weapons may be mappropriate depending on the type of enemy that you encounter.

#### (DEFENSE COMMANDS)

You should use appropriate defensive maneuvers against enemy attack. There are a variety of maneuvers that you can select. There are usually six basic maneuvers.

MANEUVER	1	MANEUVER	2	-	MANEUVER	3
MANEUVER	4	MANEUVER	5	*	MANEUVER	6

#### MANEUVER 1

Chances of avoiding enemy fire are not so high. But this can set up a good counter attack.

### MANEUVER 4

Chances of avoiding enemy fire are high against both normal and special equipment. But you cannot counter-attack

### MANEUVER 2

Chances of avoiding enemy fire are high against normal equipment.

### MANEUVER 5

Chances of avoiding Locates of enemy fire are high. You can also counter-situation. attack easily.

### MANEUVER 3

Chances of avoiding enemy fire are high against special equipment.

### MANEUVER 6

Locates enemy and evaluates the situation.

NOTE: At times maneuver 5 is not available.

### 4. SUPPLIES

A unit's fuel and ammunition can be re-supplied. There are two methods of supply. One is to use supply vehicles or cargo aircraft. A second method is to move your unit to a town or airport where you can use special supply commands. Although both methods will allow you to completely refuel and stock up on ammo, only a stop at a town or airport will allow you to re-supply a unit that requires equipment repairs.

### 3 MAPS AND CHARACTERISTICS

The maps are organized into hexgons. These hexagons can be mountains, woods, sea, towns, or airports. The terrain in each hexagon has a direct effect on maneuverability and the extent to which you can take evasive action.

### (PLAINS)

### INTRODUCTION TO MILITARY UNITS

### 1. UNIT TYPES

Both BLUE and RED forces have 18 types of units. Each of these 18 is classified as one of the following.

Attacker ...... Air to Ground Jeep ...... Ground to Ground
Fighter ..... Air to Air Commando .... Grnd-Air, Grnd-Grnd
Helicopter .... Air to Ground Infantrymen
Battle tank ..... Ground to Ground Supply vehicle

Battle tank · · · · · Ground to Ground Supply vehicle Flag tank · · · · · · Ground to Air Supply plane

## 2. ADVANTAGES AND DISADVANTAGES OF MILITARY UNITS. The chart below illustrates the a

ATTACKER BATTLE TANK

The chart below illustrates the advantage each of these four weapons has over its opposition. Arrows point to the weapon with the weaker advantage. All four of the units charted on the left are stronger than the supply plane, supply vehicle, infantrymen and commandos.

### 3. CAMP

### 1 BLUE CAMP

### COMPLIANCE WITH FCC REGULATIONS

This equipment generates and used radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no quarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Recrient the receiving antenna
- Relocate the NES with respect to the receiver
- Move the NES away from the receiver
- Plug the NES into a different outlet so that computer and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communication Commission helpful:

How to Identify and Resolve Radio - TV Interference Problems.

This booklet is available from the U.S. Government Printing Office, Washington, D.C. 20402, Stock No. 004-000-00345-4.

### 90-DAY LIMITED WARRANTY

22904 Lockness Ave. Torrance, CA 90501 Phone (213)326-8880

VIC TOKAI INC. warrants to the original purchaser only that the cartridge provided with this manual and the software program coded on it will perform in accordance with the descriptions in this manual when used with the specified equipment, for a period of 90 days from the date of purchase. If the program is found defective within 90 days of purchase, it will be replaced. Simply return the cartridge to VIC TOKAI INC. along with a dated proof of purchase. Replacement of the cartridge, free of charge to the original purchaser (except for the cost of returning the cartridge) is the full extent of our liability.

THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, WHETHER ORAL OR WRITTEN, EXPRESS OR IMPLIED. ALL IMPLIED WARRANTIES, INCLUDING THOSE OF MERICHANTIBILITY AND FITNESS FOR A PARTICULAR PURPOSE, IF APPLICABLE, ARE LIMITED IN DURATION TO 90 DAYS FROM THE DATE OF PURCHASE OF THIS PRODUCT.

VIC TOKAI INC. shall not be liable for incidental and/or consequential damages for the breach of any express or implied warranty including damage to property and, to the extent permitted by law, damages for personal injury, even if VIC TOKAI INC. has been advised of the possibility of such damages. Some states do not allow the exclusion or limitation of incidental or consequential damages or limitations on how long an implied warranty lasts, so the above limitations or exclusions do not apply to you.

This warranty shall not be applicable to the extent that any provision of this warranty is prohibited by any federal, state or municipal law which cannot be pre-empted. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.
